

Digital Stills & HD Camera

Digital Stills and Recorded HD Camera

Features:

12.3MPixel stills and 1080p video recorded to internal memory.
 Live HD over Component or HD-SDI Coax or Fiber.
 Standard definition over Composite.

With the option for Integrated Flash and Lasers, HD-SDI output, External Strobe and External Trigger, many features are combined that were not previously available to this market. An industry proven design with many possibilities

Specifications	
Sensor: Back-illuminated CMOS	Diameter: 88mm
Max Video Resolution: 1920 x 1080p	Length w/o Connector: 200mm
Still Resolution: 4672 x 2628	Weight: 2.9kg in water
Video Output: Component HD, Composite, or HD-SDI (optional)	Depth Rating: 250, 1000, 3000 or 6500m
Sensitivity: 3Lux (HD)	View Angle In Water: 60° (flat viewport)
Zoom: 10x Optical	Housing: Acetyl, Stainless Steel, Titanium
Focus: Auto / Manual	Window: Sapphire
Memory: 64GB (upgradable to 128GB)	Connector: 5506-1508 or MC-BH-8-M
Control: RS232 or RS485	HD Connector: 1Coax/6Elec or Fiber
	Power: 12-32 Vdc / 3.2W
